Dear Mr Swan

Northern Australia Infrastructure Facility

I am writing in response to your letter of 27 March 2017, requesting that I consider undertaking an audit of the operation of the Northern Australia Infrastructure Facility (NAIF), its independence and the quality of the systems and analyses being implemented.

My office is currently progressing work on the annual audit work program, which is due to be published in mid-2017. The program is designed to inform the Parliament, the public and government entities of planned audit coverage to commence in 2018–19. I have noted your concerns in relation to the NAIF and I will consider undertaking an audit of the operations of NAIF as part of the annual audit work program.

Yours sincerely

Grant Hehir
